Motion Design Reel Breakdown

Time Code	Task Responsible	Software Used
00:00 – 00:07	I modeled, rigged, and animated the crane and ball objects. I also created the lighting for the scene.	Maxon Cinema 4D.
00:07 – 00:11	I designed and animated the man and horse with key frame animation	Adobe Illustrator Adobe After Effects
00:11 – 00:15	I designed and animated the buffalo with key frame animation	Adobe Illustrator Adobe After Effects
00:15 – 00:23	I designed all the graphical and text elements except for the American Red Cross Logo. I also animated all elements.	Adobe Photoshop Adobe After Effects
00:23 – 00:29	I animated the graphics and created and animated the text.	Adobe Illustrator Adobe After Effects
00:29 – 00:31	I modeled and shaded the 3D text and animated the lights shown on the 3D text. I also created the 2D text and animated the dissolves.	Autodesk Maya Adobe Photoshop Adobe After Effects
00:31 – 00:36	I modeled and animated the truck. I also modeled the bridge and created a collapse simulation. In addition, I created all lights and textures.	Maxon Cinema 4D Adobe Photoshop Adobe After Effects
00:36 – 00:46	I animated the sections of the paintings where there was movement (lip sync, facial expressions, arm movements, tongue, and lolli pop).	Adobe Photoshop Adobe After Effects
00:46 – 00:51	I designed and animated the robot and created the lighting for the scene	Maxon Cinema 4D Adobe Photoshop Adobe After Effects

Thank you for watching.
